| Chapter 1: TT iTAKE Installation

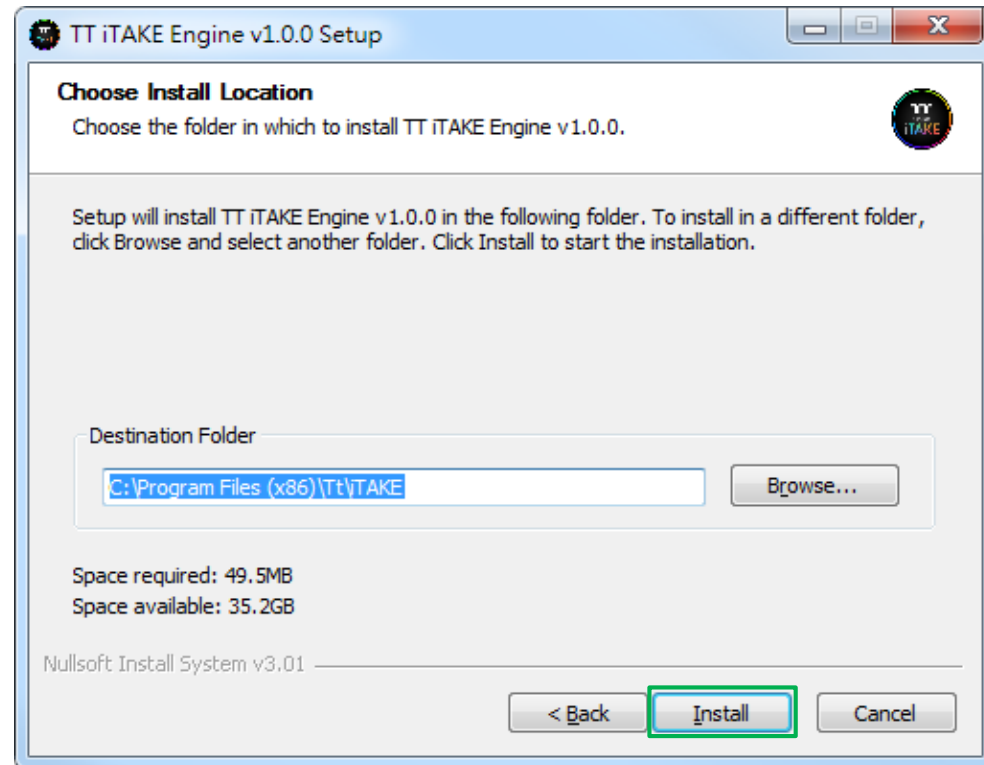

Step 1:

Launch the setup executable file (.EXE) file and click Next.

Step 2:

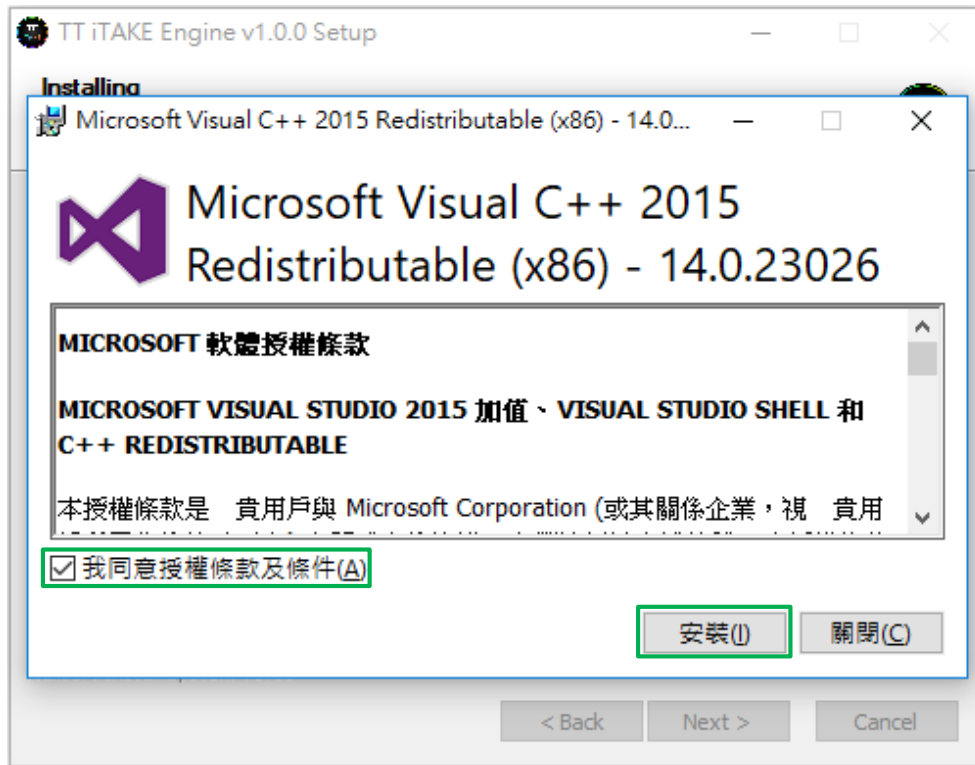

Click Install to begin the setup process.

Step 3:

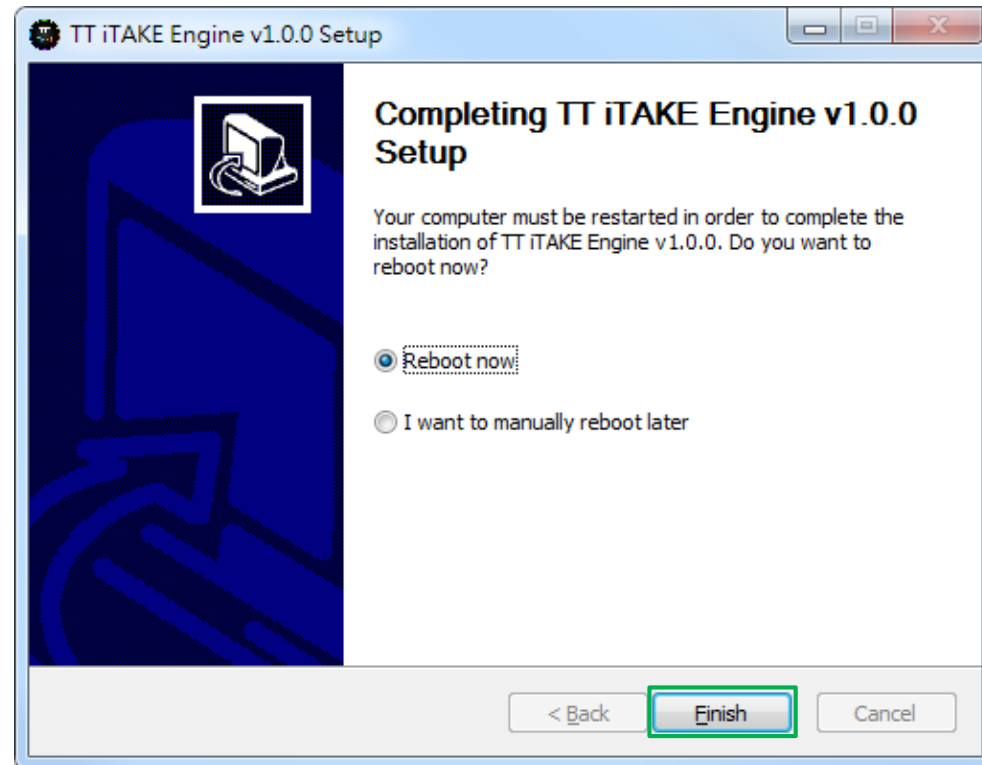

Once setup is complete, you will also need to install the Microsoft Visual C++ 2015 Redistributable Package.

✗ Without installing the Redistributable Package, the software will fail to launch.

Step 4:

Click Finish to complete the installation.

| Chapter 2: Functions Available on the Home Page

Configuration Pages

Switches between the configuration pages customize key operation, macro recording, lighting effects, performance and battery setting.

Functions for Managing Profiles

Up to 15 profiles can be added for use. The functions of each button from left to right are:

Add: Create a new profile.

Delete: Delete an existing profile.

Copy: Copy a profile.

Import: Import a profile.

Export: Export a profile.

Correcting the Name of a Profile

The name of a new profile can be modified directly.

Assigning Key Functions

Nine different functions can be assigned.

Restore Mouse Settings for All Keys / Apply

Restore Mouse Settings for All Keys: All key functions saved under the current profile will be restored to factory default values.

Apply: Save and apply all settings to the selected key.

PC IP Address

Use the TT iTAKE APP to enter the IP for control.

Home Page

You can switch the mouse model.

Profiles

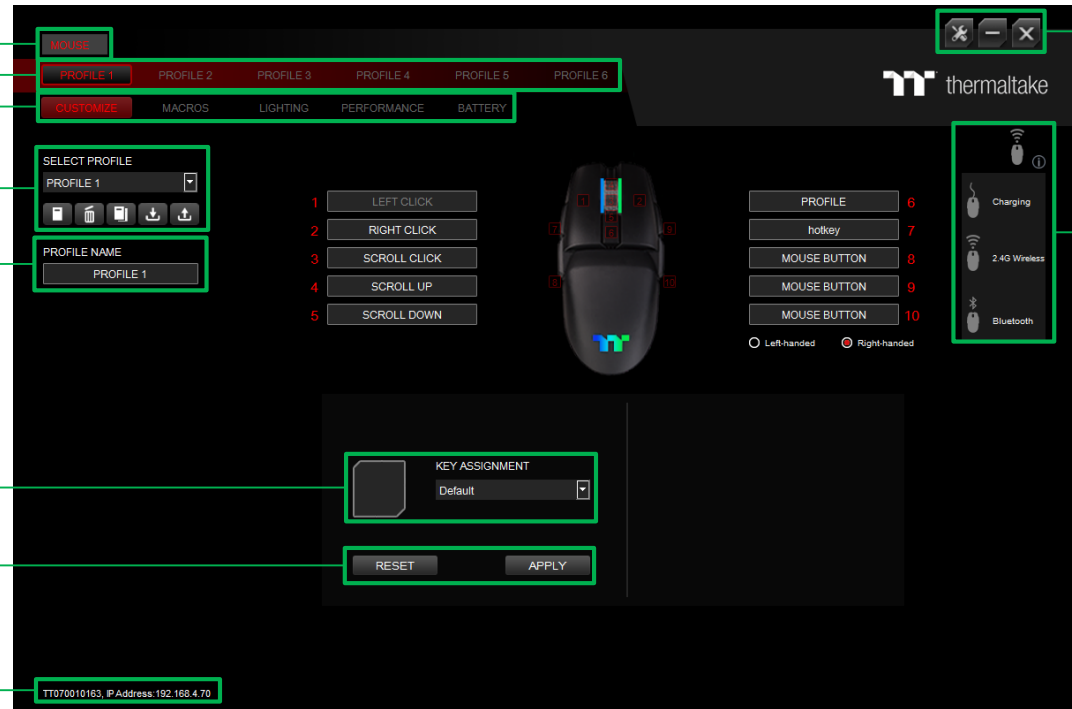

The Argent M5 wireless RGB can support up to 6 profiles, which can be switched as required.

Mouse Connected State

Charging : wired mode, support iTAKE setting.

2.4G: wireless mode, support iTAKE setting.

Bluetooth: wireless mode, not support iTAKE setting.

Other Settings / Shrink Window / Close Window

Other Settings: Software version, Amazon Alexa setting and switching the language used for the user interface.

Shrink Window: Close the display and minimize the program to the taskbar.

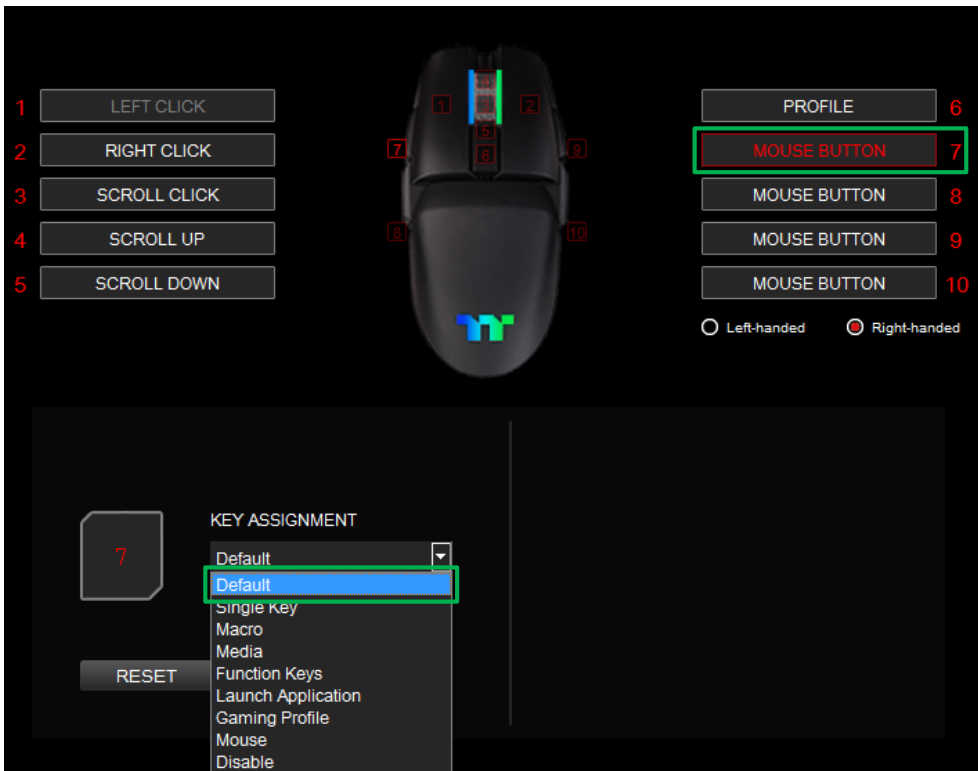

Close Window: Close the display and minimize the program to the lower right corner.

| Chapter 3: Key Configurations

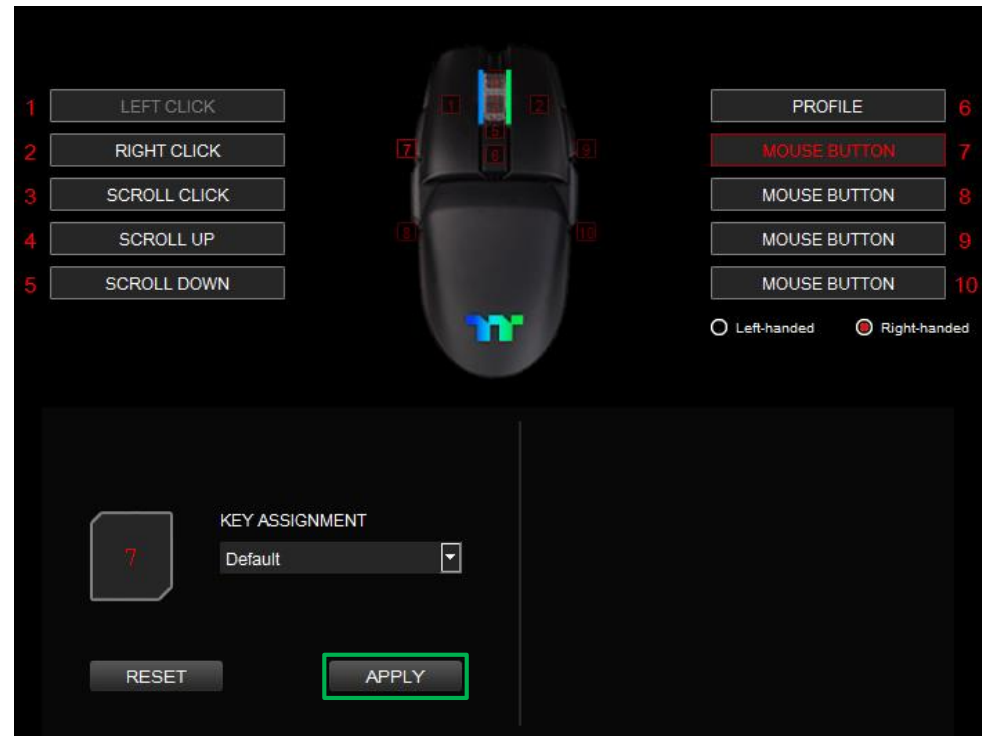

Step 1:

Select a key, then select a "Default" function from the drop-down list.

Step 2:

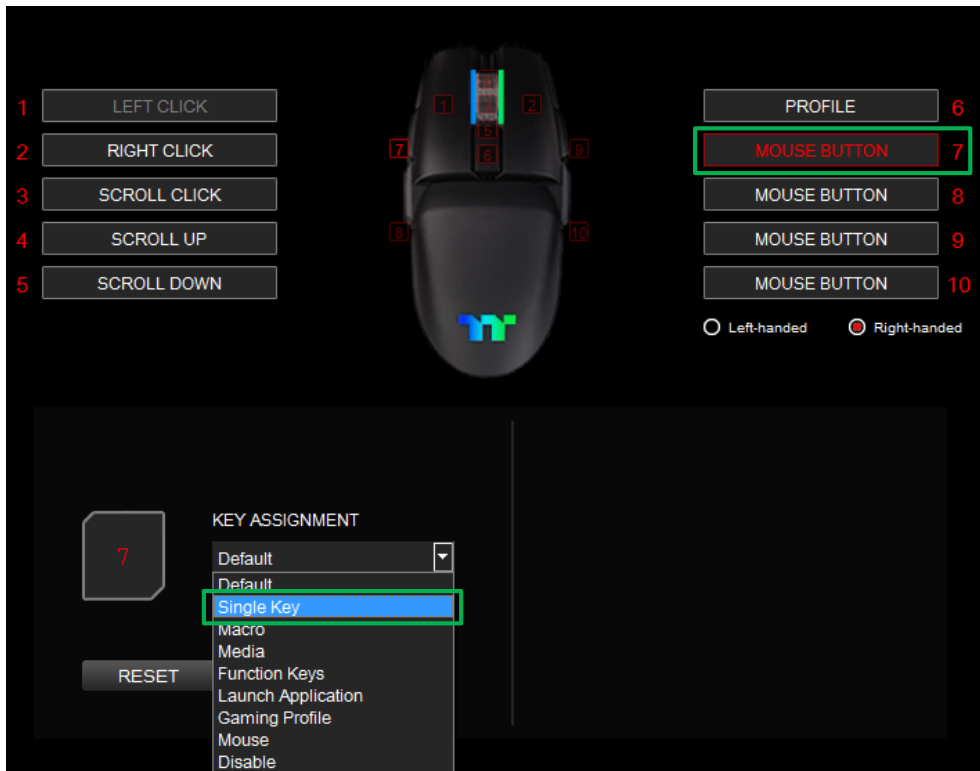

Click Apply to change and save the new function.

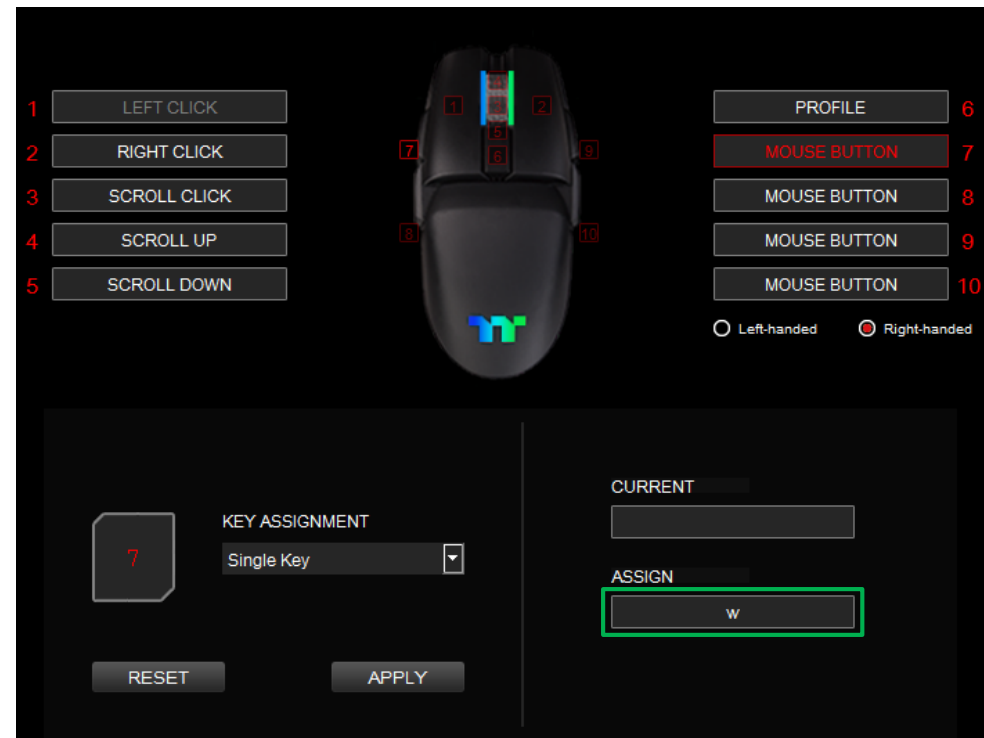

Step 1:

Select a key, then select "Single Key" from the drop-down list.

Step 2:

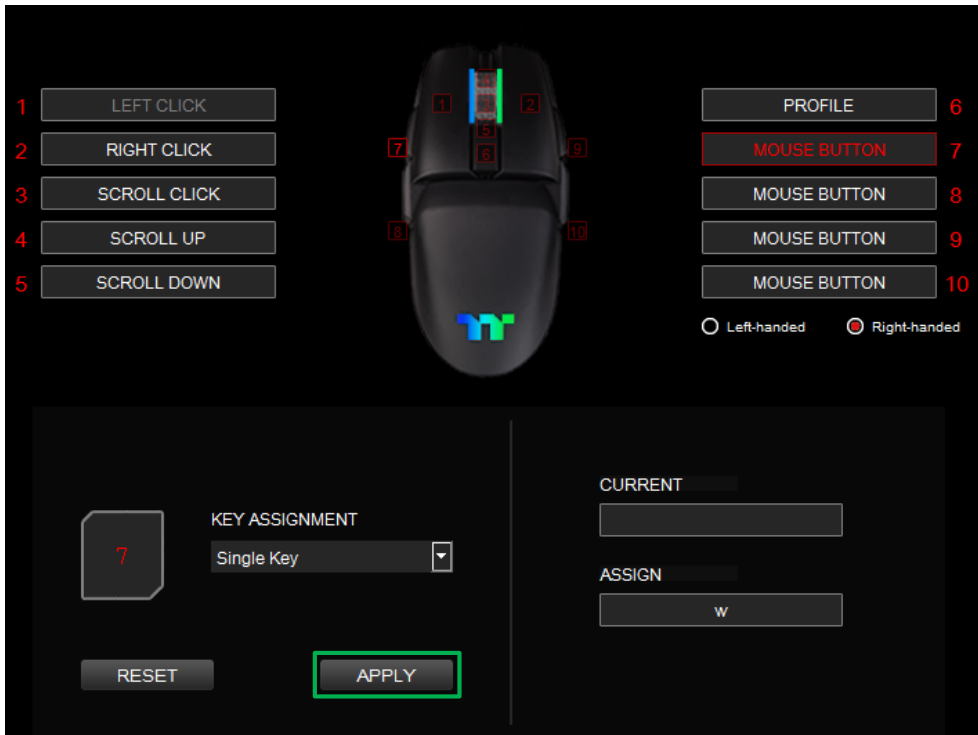

Enter a new key value into the lower-right box.

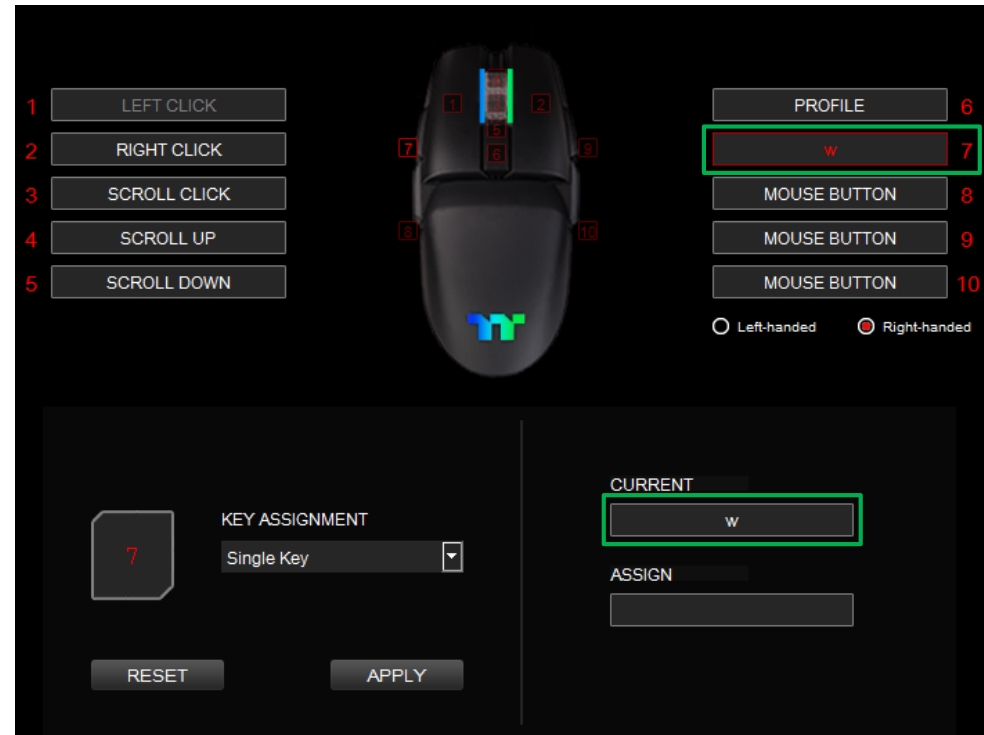

Step 3:

Click Apply to change and save the new function.

Step 4:

Step 3:

Click on the mouse image directly with the left mouse button to change the color.

✘ Right click to cancel the color.

Step 4:

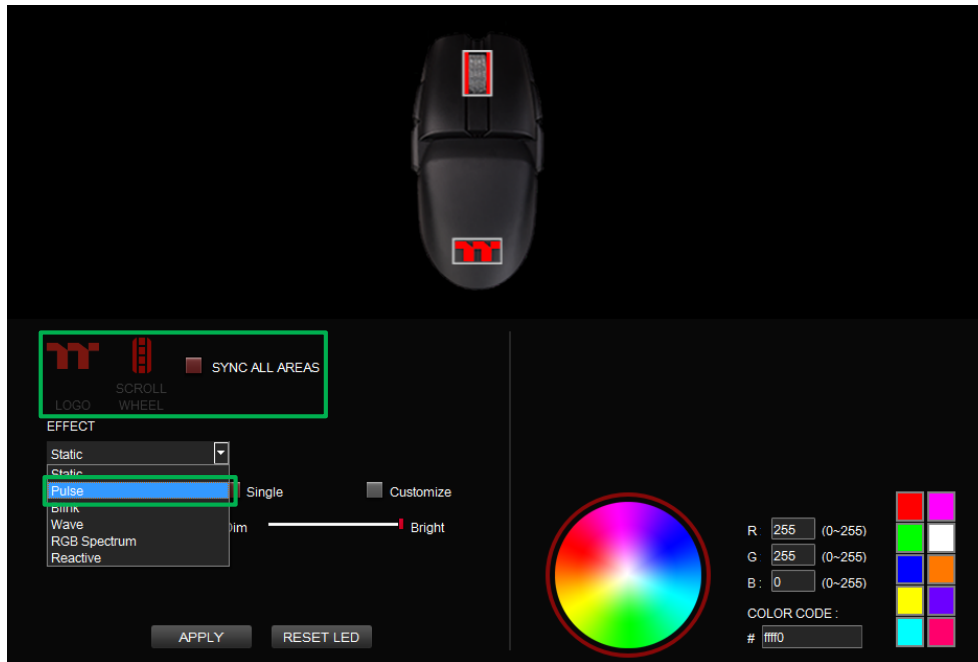

Click Apply to save the new settings.

| Chapter 8: Functions Available on the Performance Page

Sensitivity Stage

You can switch up to 6 different sensitivity stages which you can cycle through using the DPI cycle button.

Enable X-Y Sensitivity: By default, the X-axis(horizontal) and Y-axis(vertical) use the same sensitivity values. However, you may set different sensitivity values to each of the axes by the Enable X-Y Sensitivity option.

Polling Rate

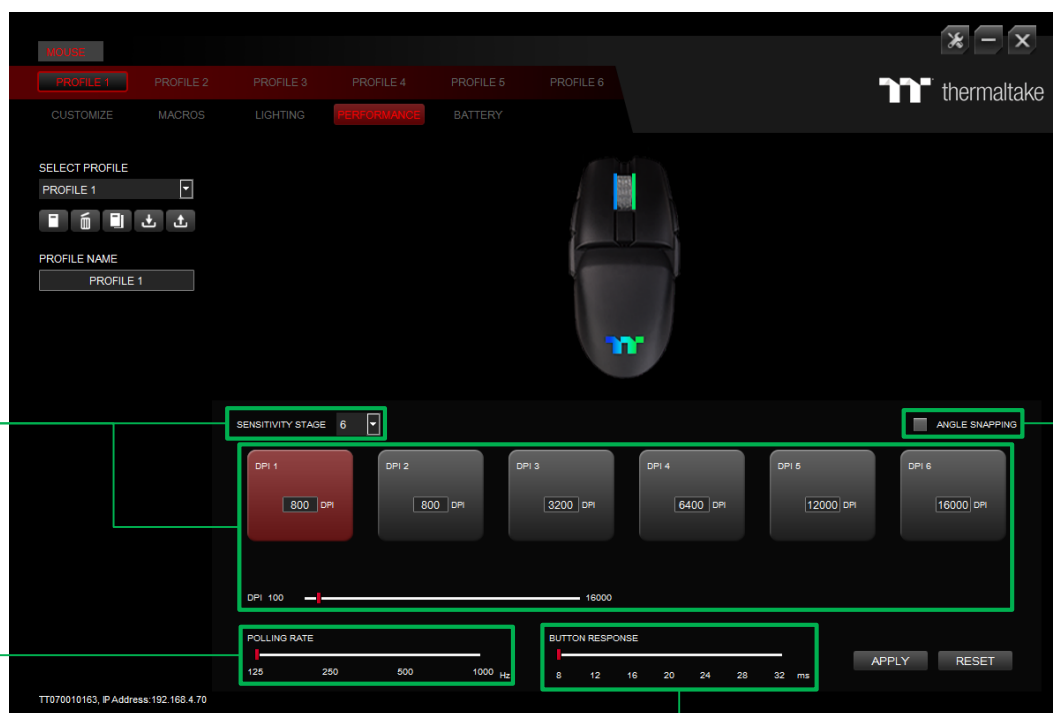

The higher the polling rate, the more often the computer receives information about the status of your mouse, thus increasing the mouse pointer's reaction time.

Button Response

The lower the response, the faster often the computer receives information about the status of your mouse, thus decreasing the mouse button reaction time.

Angle Snapping

Angle Snapping corrects minor imperfections when you try to move your mouse in straight horizontal or vertical paths. This can increase precision if you are simultaneously turning and shooting in a first person shooter or drawing lines in a graphics editing application.

| Chapter 9: Functions Available on the Battery Page

Battery State

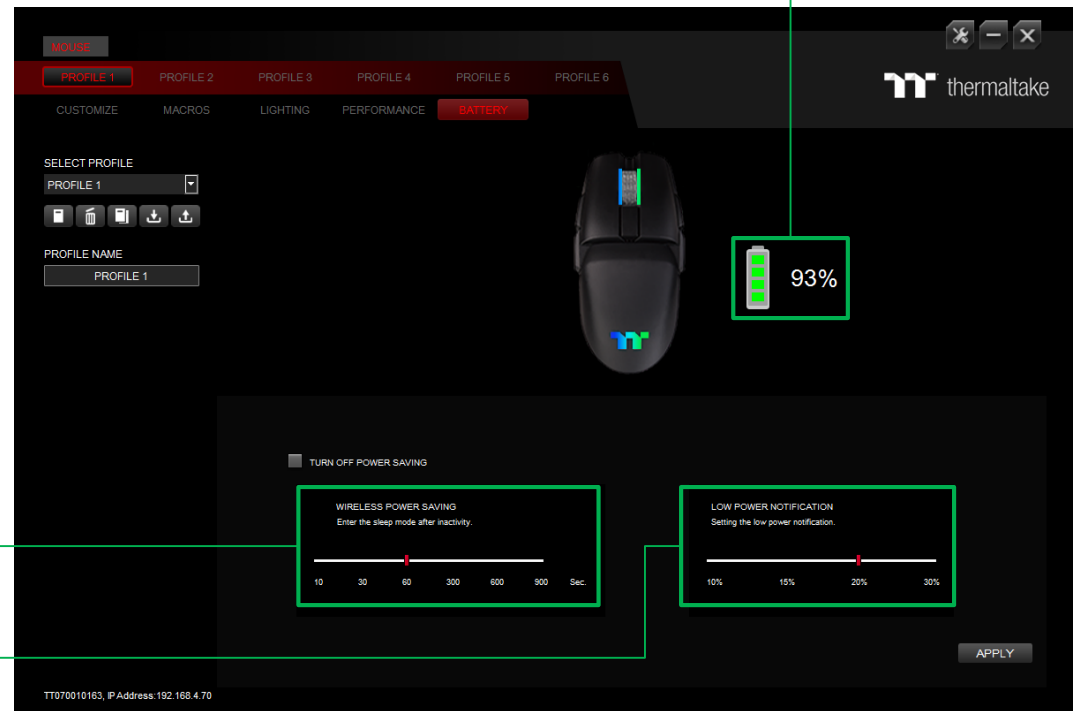

100 - 80% : Green Color.
80 - 50% : Yellow Color.
50 - 20% : Orange Color.
< 20% : Red Color.

Wireless Power Saving

Enter the sleep mode after inactivity.
Support 10, 30, 60, 300, 600, 900 Sec.

Low Power Notification

Setting the low power notification.
Support 10%, 15%, 20%, 30%.

| Chapter 10: Functions Available on the Settings Page

Language Settings

Sets the language of the program's user Interface and theme.

Razer Chroma On / OFF

Users who have installed both the TT iTAKE Software and Razer Synapse 3 can experience synchronized gaming and RGB lighting effects on their gaming gear.

Amazon Alexa Login

TT iTAKE software support Amazon Alexa voice service, allowing you to control the lights by talking to the Alexa Enabled device.

TT iTAKE APP Password Setting
